

EAGLE CREEK APARTMENTS

Utilities Information:

It is important that you have changed the Utilities into your name by the time you move in. It may take **several days for the utility company to make the transfer**, so start the process well before your move in date.

(Since utilities including gas, water, electricity, garbage, phone, and cable vary for the different properties, it is the tenants responsible to get these Utilities into their names.) To get a list of which utilities need to be put in your names, first find your property within this Web Site.)

Please note: **Eagle Creek, Little Eagle Creek (townhouses), and Little Eagle Creek II (two bedroom units) are all electric**, so Lincoln Electric System is your only utility. You may also decide to get Internet/Cable, and that contact information is listed below. **Please note that TV Dish is not allowed at our apartments.**

On each property web page, near the top, you can reference which utilities you are responsible for. If you are a current tenant, you can also reference your lease from this page.

Below is a list of Lincoln's Utilities, and how to put them in your name. If you should need more information, please contact us.

Electricity: Lincoln Electric Systems
